

Assignment Description:

Product Backlog

This is the master list of everything required to build your application. It should be a detailed breakdown of your high-fidelity design into actionable items.

Format: A document or spreadsheet containing a list of user stories (e.g., "As a <user type>, I want to <perform an action> so that <I can achieve a goal>").

Content: Include all features, enhancements, and major technical tasks needed for the entire project. Prioritize the list with the most critical features at the top.

Order User Stories From Highest to Lower Priority Later, Difficulty as well

Basic and obvious criteria at the end.

Outline for each user story:

As a <user type>, I want to <perform an action> so that <I can achieve a goal>

User Stories:

Story 1: Individual Account Creation

As a: Person with no children

I want to: Create an account

So that: I can login to access my to do list and calendar

Priority: High

Effort: High

Acceptance Criteria:

Criterion 1: On the sign in account page, I can select the type of account I create and click on the next button to bring me to the next page after entering my email. Any non-email would not work

Criterion 2: I am sent a verification code through email and can enter it to the verification page to create my account.

Criterion 3: The User information inputted during account creation is the same shown in my profile. If the email and/or password is wrong, I should get an error message.

Story 2: Family Account Creation

As a: Parent

I want to: Create an account

So that: I can login and send tasks to my children

Priority: High

Effort: High

Acceptance Criteria:

Criterion 1: On the sign in page, I can select the family button to create an account and choose to create a parent account for myself.

Criterion 2: I can enter my user information to create the account and receive a verification code through my email. I can enter it to create an account.

Criterion 3: The user information I inputted should be the same as in the account page and I should be able to login with it. If the email and/or password is wrong, I should get an error message.

Story 3: Task Details

As a: Individual

I want to: Be able to write details under each task and view them

So that: I can be reminded of the specifics of a task I set quickly

Priority: High

Effort: Medium

Acceptance Criteria:

Criterion 1: On the to do list page, clicking a button next to the task activates a drop down and allows users to view details about that task

Criterion 2: Users can press a different button to add details about a task

Criterion 3: Users can click on a task in the calendar view and have the task and the details pop up

Story 4: Calendar view

As a: Any user

I want to: be able to see each month

So that: I can see what I have coming up

Priority: high

Effort: low - medium

Acceptance Criteria:

Criterion 1: Calendar has easy navigation

Criterion 2: can be able to view months, at any year.

Story 5: Account Login

As a: any of the users (personal, child, parent)

I want to: login to my account

So that: I have access my to do list and calendar

Priority: High

Effort: Medium

Acceptance Criteria:

Criterion 1: On the sign in account page, if I were to put in a wrong email, it will give

me some sort of error

Criterion 2: If I forgot my password, I should be able to click “forgot password” and reset it through email and be able to change it and login in successfully

Criterion 3: if i input the wrong password, it will give me an error so that I can try again or click forget password

Story 6: Create and send task to child

As a: Parent

I want to: Create a task and send it to my child

So that: I can quickly inform them of what they need to do

Priority: Medium

Effort: High

Acceptance Criteria:

Criterion 1: Switch to create task page and choose which child I want to send it to

Criterion 2: I can enter task information, send it to the child, and receive confirmation

Criterion 3: I can cancel the creation of the task

Story 7: Child view of calendar

As a: Child

I want to: View my current months calendar

So that: I can easily see my months agenda and plan around tasks

Priority: Medium

Effort: Medium- Hard

Acceptance Criteria:

Criterion 1: Calendar page allows users to view the to do list for a day when that day is clicked on

Criterion 2: A task is marked as completed once marked as completed

Criterion 3: Points are added to account once a task is completed

Story 8: Child Views Tasks on to-do list

As a: Child

I want to: View the tasks on my to do list and mark them complete

So that: I know what tasks I need to do and what I’ve finished

Priority: Medium

Effort: Medium

Acceptance Criteria:

Criterion 1: I should be able to see all the tasks I need to do and what I’ve finished

Criterion 2: I should be able to mark a task complete.

Criterion 3: Completed tasks should have a visual marker that shows it’s complete

Story 9: Pet Collection

As a: Children or individual

I want to: be able to see my pet collection

So that: I can swap out and see the levels on my pet.

Priority: Medium

Effort: High

Acceptance Criteria:

Criterion 1: I can view my collection through the task bar

Criterion 2: I can select a certain pet

Criterion 3: View their levels and so on.

Story 10: View Tasks for Different Days

As a: Child

I want to: Switch between days and view tasks for different days

So that: I know my current and future tasks

Priority: Medium

Effort: Medium

Acceptance Criteria:

Criterion 1: I can switch between days and view my tasks for that day

Criterion 2: I should see a change in dates and tasks

Criterion 3: I should be able to see all of my completed tasks for each day

Story 11: Parent Views Child's task completion

As a: Parent

I want to: Check progress on assigned tasks.

So that: I can check whether the task assigned was completed

Priority: Medium

Effort: Medium

Acceptance Criteria:

Criterion 1: Parent sees list of completed tasks

Criterion 2: Parents can see the tasks they've assigned.

Story 12: Login -> homepage

As a: user

I want to: login and be directed to the main page which is the calendar view

So that: I can get a glimpse of what my day looks like

Priority: medium

Effort: low

Acceptance Criteria:

Criterion 1: when I login, I am taken to the calendar page

Criterion 2: if login fails, it will let me know

Story 13: add points

As a: parent or individual

I want to: add points to tasks

So that: give myself or child points

Priority: medium

Effort: high

Acceptance Criteria:

Criterion 1: points can be given

Criterion 2: Show up on pet or account.

Story 14: Hamburger

As a: any user

I want to: use the “hamburger” menu

So that: navigate to certain pages

Priority: medium

Effort: medium

Acceptance Criteria:

Criterion 1: available at all times to access

Criterion 2: works for all users

Story 15: Swap pets.

As a: Child or Individual

I want to: change my pet on the calendar page

So that: I can have a new pet shown

Priority: medium

Effort: low

Acceptance Criteria:

Criterion 1: Pet can be visible

Criterion 2: Easy to swap out

Story 16: Parental Controls

As a: Parent

I want to: Control the amount of time my child spends on the app

So that: They don't spend too much time playing with their pet or on their phone

Priority: Medium

Effort: High

Acceptance Criteria:

Criterion 1: Parent should be able to set limitations on their child's app usage

Criterion 2: The child should be unable to use the app or certain functions of the app as specified by the parent

Criterion 3: The app should work as usual when they haven't gone beyond the set restrictions

Story 17: View Accessories

As a: Child or individual

I want to: View all of my accessories for my pets

So that: I can see what I have

Priority: Medium

Effort: High

Acceptance Criteria:

Criterion 1: Should be able to see all of the accessories I own.

Criterion 2: I can select a specific accessory

Criterion 3: I should be able to view the details of my accessories

Criterion 3: The level bar goes up for a daily log in

Story 18: Account Storage

As a: User

I want to: have my account persist after logging out

So that: I can know my settings, calendar and to do list are saved

Priority: Medium

Effort: Medium

Acceptance Criteria:

Criterion 1: The account details are stored in a database

Criterion 2: The account details in the database are updated when a user updates their profile

Criterion 3: The account details are deleted from the database when a user deletes their account

Story 19: Task Acceptance

As a: Child

I want to: Accept or deny a task sent

So that: I can control which tasks I have currently active

Priority: Medium

Effort: Low

Acceptance Criteria:

Criterion 1: A task is added to the child's to do list when accepted

Criterion 2: A task is not added to the child's to do list when rejected

Criterion 3: The parent is informed when a task is not accepted

Story 20: Task Deletion

As a: User

I want to: Delete active tasks

So that: I can keep my to do list up to date with my current responsibilities

Priority: Medium

Effort: Low

Acceptance Criteria:

Criterion 1: An active task is no longer shown on the to do list when deleted

Criterion 2: The deleted task does not show on the calendar

Criterion 3: The user is prompted if they are sure they wish to delete a task

Story 21: Task Details Editing

As a: User

I want to: Edit details of a task

So that: I can add or change the details about a task

Priority: Medium

Effort: Low

Acceptance Criteria:

Criterion 1: Pressing a button brings up an editing screen for the task

Criterion 2: Editing the task and confirming changes the details on the to do list page

Criterion 3: Task details are changed on the calendar view

Story 22: Task Sorting/Filtering

As a: User

I want to: Sort and filter my tasks by either due date, priority, completion, etc.

So that: I can easily focus on the most relevant tasks

Priority: Medium

Effort: Medium

Acceptance Criteria:

Criterion 1: A menu that allows sorting of tasks by due date or priority

Criterion 2: Sorting and Filtering can be combined.

Criterion 3: Default returns all tasks, sorted by date.

Story 23: Task History

As a: User

I want to: View and check my previously completed tasks in a history log

So that: I can reflect and track my progress on how much I've done.

Priority: Medium

Effort: Medium

Acceptance Criteria:

Criterion 1: Completed tasks are stored in a history section.

Criterion 2: Tasks show completion details and date.

Criterion 3: Users can clear history if they wish

Story 24: Daily Login Rewards

As a: Child/User

I want to: Earn rewards for logging in daily, using the app

So that: I feel motivated to check in regularly

Priority: Medium

Effort: Medium

Acceptance Criteria:

Criterion 1: A streak counter that increases for each consecutive day they're logged in

Criterion 2: Missing a day resets the streak

Criterion 3: Reaching milestones like 7 days to give bonus points or pet accessories

Story 25: Child marks complete on Tasks on to-do list

As a: Child

I want to: Mark my tasks as complete

So that: I know what tasks I need to do and what I've finished

Priority: Low

Effort: Low-Medium

Acceptance Criteria:

Criterion 1: I should be able to see all the tasks I've finished

Criterion 2: I should be able to mark a task complete.

Criterion 3: Completed tasks should have a visual marker that shows it's complete

Story 26: Achievement Unlocking

As a: Child

I want to: unlock achievements

So that: I feel rewarded for my efforts.

Priority: Low

Effort: Low

Acceptance Criteria:

Criterion 1: Achievements are automatically checked and unlocked

Criterion 2: There is an achievement pop up when unlocked

Criterion 3: Progress is tracked in app and can be viewed in the achievement tabs

Story 27: Forget Password**As a:** User**I want to:** have my password reset if forgotten**So that:** I change the password to something I will remember**Priority:** Low**Effort:** Medium

Acceptance Criteria:

Criterion 1: Pressing the forget password button brings me to the next screen of the process**Criterion 2:** Sends a password reset email to the email inputted**Criterion 3:** Changes password to new password after updated**Story 28: Password Privacy****As a:** User**I want to:** have my password be private**So that:** my information and account won't be stolen**Priority:** Low**Effort:** High

Acceptance Criteria:

Criterion 1: Password details are stored with account details**Criterion 2:** Password is encrypted**Criterion 3:** Password requires some effort to crack**Story 29: Pet Level****As a:** Child**I want to:** view my pet's level**So that:** I be rewarded for the amount of time I put into the app**Priority:** Low**Effort:** Low

Acceptance Criteria:

Criterion 1: The user can view the pet's level in the pet screen**Criterion 2:** The level bar goes up when a task is created and completed**Story 30: Subscription****As a:** Parent or individual**I want to:** Pay and obtain a subscription**So that:** I can get specific benefits such as getting rid of ads**Priority:** Low**Effort:** Low

Acceptance Criteria:

Criterion 1: I should be able to get the benefits from the subscriptions such as getting rid of ads on the app

Criterion 2: If payment isn't enough, there should be a message and the user shouldn't get any benefits

Criterion 3: I should be able to cancel the subscription when I want to

Story 31: Search bar

As a: Child or individual

I want to: Search for a specific task

So that: Quickly find and learn the details of the task

Priority: Low

Effort: Medium

Acceptance Criteria:

Criterion 1: A list of possible tasks should show up when I type in the search bar

Criterion 2: If there are no matching tasks, the screen should display a message saying so

Criterion 3: There should be an error message if something goes wrong with the search such as the loss of internet connection

Story 32: Navigation bar Functionality

As a: Child, parent, and single user

I want to: I want to easily access the navigation bar

So that: I can access other parts of the app (tasks, calendar, settings, etc)

Priority: Low

Effort: Low

Acceptance Criteria:

Criterion 1: The bottom task bar buttons switch to the relevant page quickly

Story 33: Notifications

As a: Child

I want to: Be Notified of upcoming tasks while not using the app

So that: I can be reminded about tasks

Priority: Low

Effort: Low

Acceptance Criteria:

Criterion 1: The app sends notifications when an upcoming task due date is coming up

Criterion 2: The user can set the frequency of these notifications in their profile

Criterion 3: The user is shown these notifications in their notification center

Story 34: Child Task Pop up

As a: Child

I want to: Have a pop up when my parent assigns me a task

So that: I know about a task and its details as soon as possible so I can plan around it

Priority: Low

Effort: Low

Acceptance Criteria:

Criterion 1: When a parent sends a task the children receives the task

Criterion 2: The child receives a task pop up if they are in the app, with the details of the task being found in the pop up

Criterion 3: The child can view this pop up in the notification later if not currently using the app

Story 35: Child's pet customization

As a: child

I want to: be able to buy themes and pet customizations

So that: I can use the rewards I worked for

Priority: low

Effort: medium

Acceptance Criteria:

Criterion 1: When I click to buy an item, I should be able to use it immediately after

Criterion 2: If I don't have enough rewards to buy an item, it should tell me that I need a specific amount more to be able to purchase

Story 36: Logging out of account

As a: child, parent, or single user

I want to: be able to easily locate the logout button

So that: I can exit my account and go to the login page

Priority: low

Effort: low-medium

Acceptance Criteria:

Criterion 1: Once I click on the logout button, I should immediately be redirected to the main login page

Criterion 2: I should be asked if im sure I want to log out

Criterion 3: If I change my mind, I should be able to click cancel and it should stay logged in

Story 37: Profile Management

As: any of users

I want to: edit my profile details (name, preferences)

So that: my account is flexible

Priority: Low

Effort: Medium

Acceptance Criteria:

Criterion 1: Profile pages display user info

Criterion 2: Users can update fields and save changes.

Criterion 3: Updates reflect across the app.

Story 38: Buy pets

As a: Child

I want to: Be able to get new pets from the shop

So that: I can use the rewards I worked for

Priority: Low

Effort: Medium

Acceptance Criteria:

Criterion 1: I should be able to buy a pet and the pet should show up in my collection

Criterion 2: If I don't have enough to buy the pet, an error message should show up, saying I don't have enough

Criterion 3: I should be able to view pets and their prices in the shop

Story 39: Change Pet name

As a: child or individual

I want to: change the name of my pet.

So that: have new names

Priority: low

Effort: low

Acceptance Criteria:

Criterion 1: user can easily change names

Criterion 2: Name is updated without errors

Story 40: Change account information

As a: Individual

I want to: Change my account information

So that: I can login using a different email or password

Priority: Low

Effort: Low

Acceptance Criteria:

Criterion 1: I should be able to change my account information and have that show up on the Account page.

Criterion 2: I should be able to login with the changed information

Criterion 3: I should receive a confirmation message saying that my account information has changed.

Story 41: Notification

As a: child

I want to: get reminders of tasks

So that: I don't forget them

Priority: Low

Effort: Low

Acceptance Criteria:

Criterion 1: Notification set before due dates

Criterion 2: Frequency adjustable in setting

Story 42: Sign out

As a: any user

I want to: sign out

So that: change accounts or sign out of a device

Priority: low

Effort: low

Acceptance Criteria:

Criterion 1: Sign out with ease.

Story 43: change color / theme

As a: any

I want to: change color of app accents

So that: I can have a better user experience

Priority: low

Effort: high

Acceptance Criteria:

Criterion 1: Change color in settings

Criterion 2: Verify settings are correct.

Story 44: Deleting draft of a task

As a: parent

I want to: be able to cancel a task that I am working on to send to me child

So that: I can switch to a different child or if I don't want to assign that task anymore

Priority: low

Effort: low

Acceptance Criteria:

Criterion 1: When I click “cancel”, I should be asked first if I am sure if I want to cancel

Criterion 2: If I am sure I want to cancel, it should verify that the task was deleted

Criterion 3: If I want to continue working on it, I should be able to say “no” and be redirected back to the task I was working on

Story 45: Add child

As a: Parent

I want to: Add a child to my account

So that: I can send tasks to them

Priority: Low

Effort: Low

Acceptance Criteria:

Criterion 1: The new child should show up on the User Roles page and when we create a new task

Criterion 2: I should be able to send them tasks

Criterion 3: I should be able to get a confirmation message when I add them or an error message when I can't.

Story 46: View Achievements

As a: Child or individual

I want to: view some basic achievements

So that: know how I have been doing recently

Priority: Low

Effort: Low

Acceptance Criteria:

Criterion 1: Viewing achievements on settings

Criterion 2: Making sure they are accurate

Story 47: Delete Account

As a: parent or individual

I want to: delete my account

So that: I can have my data securely deleted

Priority: low

Effort: medium

Acceptance Criteria:

Criterion 1: Make sure account is deleted

Criterion 2: no data is saved

Criterion 3: children cannot access this.

Story 48: Change Accessories

As a: Child or Individual

I want to: Change accessories on pets

So that: pets can have a unique look.

Priority: low

Effort: low

Acceptance Criteria:

Criterion 1: can change accessories on pet.

Criterion 2: easy to take on and off.

Story 49: Change Hat

As a: Child or Individual

I want to: Change the hat on my pet.

So that: my pet can have a unique look

Priority: low

Effort: low

Acceptance Criteria:

Criterion 1: being able to change hat on pet

Criterion 2: easy to take them off and on.

Story 50: Buying accessories

As a: child or individual

I want to: buy accessories for my pet

So that: I can have a collection of different accessories

Priority: low

Effort: medium

Acceptance Criteria:

Criterion 1: keep track of all user ownership

Criterion 2: able to easily put them on or off

Story 51: Buying hats

As a: child or individual

I want to: buy hats for my pets

So that: I can change my pets headgear

Priority: low

Effort: low

Acceptance Criteria:

Criterion 1: keep track of all hats and their ownership

Criterion 2: able to flip them on or off.
